

SCRUM MEETING: SCRUM REVIEW AND SPRINT 2 PLANNING

DATE:

6/4/23

TIME:

2:00 PM

ORGANISOR:

Modjadji Mphekwane

IN ATTENDANCE

Richard Sims, Zenzele Hlubi, Zandile Silayi,
Reala Reddy

INTRODUCTION

The purpose of this meeting is to give a review of what was done in the first sprint and for the client to give the team new software requirements for the second sprint.

REVIEW OF SPRINT ONE

The team showed the client what was done for the first sprint. The following were done in the first sprint for each software application:

- ✓ the login and registration page were complete and working.
- ✓ the user can register his/ her user number, first and last name, role, email, and password.
- ✓ if the user registered with the correct details, then the user can log into the system.
- ✓ if the user forgets his/ her password then he/ she can reset his/ her password given that he/ she gives the correct user ID and email address

- ✓ if the user fills in the correct user ID and password the user is then able to log into his/ her designated home page based on his/ her role

The only issue which was encountered on the mobile application side is that the mobile app was unable to log into the designated home pages when the user logs in.

CLIENT'S SPRINT 2 REQUIREMENTS

The following were the client's software requirements for the second sprint:

- the user home pages must be functional for this sprint

STUDENT

- the user must be able to enroll into a course.
- the course that the user enrolls into should be added to the course dashboard.

TEACHER

- the user must be able to create a course.
- the course that the user created should be added to the course dashboard

Additional Requirements (can be postponed to third sprint if not complete):

- the teacher should be able to access the course page for the created course to upload course material for students to download.
- the student should be able to access the course page for the enrolled course to view and download the course material.

ANNOUNCEMENTS

The next meeting with the client will be in the beginning of the next sprint, and the team should meet the next time for the backlog refinement meeting.

NEXT MEETING

08 April 2023 | 20h00 on Microsoft Team

Meeting was adjourned at 14h45.
