Kekae,Zenzele Hlubi,Zandile
Silayi

INTRODUCTION

There was an online meeting on Microsoft Teams. The purpose
of the meeting was discussing the architecture style of the
project individually for the app and for the web, then we
further discussed the structure of our UML diagrams based on
the architecture style we choose for each applications.

THE QUESTIONS/ TOPICS/ DISCUSSED

- What type of architecture style the project is using for
  the web and app, and was agreed on that it is client-

server type.

- The views for software architecture were split among the group members since there's five of us.
- Each member was given an option to chose the UML diagram they will design.

NEXT MEETING

12 April 2023 | 8:00 PM on Microsoft Teams Meeting

Meeting was adjourned at 9:00 pm.
